

BRIDGESTACK

Promotional Pricing — Launch Period

BridgeStack builds custom software using AI-augmented development, delivering professional-grade applications at a fraction of traditional agency costs. During our launch period, we're offering promotional subscription pricing across all product tiers. Every plan includes a custom AI-built design, avatar-guided onboarding, a live demo via Launchpad, and multilingual support.

- Optional API integrations

Full Stack App

- Custom web application
- Database + API backend
- User authentication
- CRM + analytics dashboard
- Third-party integrations
- Full source code delivery
- Free domain, email, SSL & hosting

Game Development (Unreal Engine 5)

Our UE5 game development tier is coming soon. Join the waitlist to be notified when pricing and availability are announced. Planned features include multi-platform builds, custom gameplay, 3D environments, multiplayer support, and store submission.

How It Works

- 1. Tell us what you need.** Describe your project through our avatar-guided onboarding experience.
- 2. We build it.** Our AI-augmented development team designs, codes, tests, and documents your project.

3. Review your live demo. Every project includes a live demo via Launchpad so you can see it in action before launch.

4. Launch and grow. We handle hosting, deployment, and ongoing maintenance so you can focus on your business.

Custom & Enterprise Projects

Need something beyond our standard tiers? Projects requiring commercial databases (MS SQL Server, Oracle, IBM Db2), enterprise integrations (Salesforce, SAP, Dynamics, ServiceNow), real-time booking engines, video/audio streaming, or AI/ML model training are quoted at our standard rates. After a requirements analysis, you'll receive a detailed proposal with transparent pricing based on actual scope, complexity, and timeline. Our AI-augmented approach typically delivers at 60–70% below traditional agency rates.

If your project requires commercially licensed software (e.g., Microsoft SQL Server, Oracle Database, or SAP), you must provide access to an active instance with appropriate credentials and permissions. BridgeStack does not provision or license commercial software on your behalf.

General Terms

- All prices shown are promotional launch-period pricing and are **subject to change without notice**.
- Setup fees are one-time charges collected at project kickoff.
- Free trial periods begin at account activation. No payment is required until the trial ends.
- Annual billing is available at a 17% discount across all tiers.
- Delivery timelines are estimates and may vary based on project complexity and client responsiveness.
- All projects are subject to review. BridgeStack reserves the right to decline projects that do not meet our quality or ethical standards.
- Payment is collected after you review and sign the Statement of Work (SOW).

These promotional prices are offered during the BridgeStack launch period and may be modified or withdrawn at any time without prior notice. © BridgeStack 2026. All rights reserved.
